

SEE FIRST

ISSUE 1 • NEWSLETTER JULY 2020

OUR GOAL

SEE FIRST project aims to provide methods and tools to **foster the employability among young individuals through upskilling their soft skills** (i.e. communication, creative thinking, work ethic, teamwork, and more).

SEE FIRST targets recent High School graduates, undergraduates of post-secondary education, and vulnerable young individuals-unemployed, disadvantaged, migrants- as well as recent young employees, who want to develop their competences aiming for an promotion or a new job offer!

ABOUT US

Started in April 2020

SEE FIRST is an innovative Erasmus+ project developed by a consortium composed by three training organisations with a focus on young adults, two companies active in technology-enabled training and education and a European network of organisations dedicated to the promotion of digital learning. The team is made of:

- ASSERTED KNOWLEDGE (AKNOW) from Greece (www.asserted.eu)
- FEUZ (Fundación Empresa-Universidad de Zaragoza) from Spain (www.feuz.es)
- IDEC from Greece (www.idec.gr)
- CIVIC Computing from the UK (www.civicuk.com)
- European Digital Learning Network from Italy (www.dlearn.eu)
- Emphasys Centre from Cyprus (www.emphasyscentre.com)

"Seeking first job equipped with proper soft skills" project number: 2019-3-EL02-KA205-005437

Kick off meeting

The consortium met online due to COVID-19 emergency regulations and agreed on how to run the project in the next months. Quality and dissemination strategy and plans aspects were also introduced, analysed, and discussed while the tasks and roles were allocated for the smoother implementation of the results. The partners set the stage for the upcoming steps of the project and its activities in a collaborative and vibrant atmosphere.

Rationalisation phase

For the first output, the partners look into the most important Transversal Skills in the educational fields of interest. The project addresses three main educational fields of crucial importance to the partner countries (health, socioeconomic, sciences) and determines the key soft skills per sector, classified in order of importance (where importance equals impact on employability of entry level applicants). The partnership will directly interact with at least 200 companies from the targeted sectors and capture their views to determine the importance of those skills. The coordinator, AKNOW, leads this activity by creating a survey to reach out to employers and companies. The survey will shed light into the views regarding the soft skills of the representatives of the job market and contribute to informing the next products of the project.
