

## New products for the promotion of the projects

The work and cooperation of the consortium is giving its results: the project has been promoted and enriched by a [new infographic](#) and a [second press release](#) is being prepared nowadays!!

Don't miss them and have a look at our [Facebook](#) and [LinkedIn](#) pages now!

#SEEFIRST

## Goal cards: first step towards the upskilling of transversal competences!

The last months witnessed the partners busy in preparing and producing the core elements of the teaching material: The Goal cards for soft skills!

Goal cards contain practical activities, exercises, inputs for reflecting and assessing young people and employees' soft skills level. The goal cards have been created by partners on the structure of the surveys conducted last year. The structure resulting sees 3 main skills with each of them comprising further 3 sub-skills.

**Communication:** 1) Verbal Communication 2) Active Listening 3) Negotiation

**Teamwork:** 1) Collaboration 2) Reliability 3) Respectfulness

**Problem Solving:** 1) Decision Making 2) Logical Thinking 3) Attention to Detail

The goal cards will be available to whoever wants to practice theirs on the Genie. The Genie is as well as under construction: make sure you visit regularly the website ([www.seefirst.eu](http://www.seefirst.eu)) to discover more and start your journey!

### A close transnational collaboration

Despite the still difficult situation which does not allow travels and face-to-face meetings, the partners of SEE FIRST managed to keep their communication's flow very active and successful by arranging and attending online video-calls.

The consortium met in February 2021 and will be again 'virtually' reunited during upcoming summer... A great example of teamwork and communications, a real-life assessment of soft skills at work!

### Local webinar

Partners organized a local webinar for participants from Greece and Cyprus on the 31st of May.

During the webinar partners presented some skills of high importance in the labor market, namely communication, decision making and conflict management.

Participants had the chance to learn more about these skills and how to improve them, while they also took part

in interactive activities which aimed to engage them more in the training.
